Calvary Adelaide Surgicentre

Calvary Adelaide Surgicentre is a specialised day surgical unit within the Calvary Adelaide Hospital. Located on level 3, the Surgicentre offers a high standard of patient care to the communities of Adelaide and its surrounds, as well as a comprehensive range of health services including;

Plastic and Reconstructive surgery

Calvary Adelaide Surgicentre plastic and reconstructive surgeons are members of the Australian Society of Plastic Surgeons and the Royal Australasian College of Surgeons.

They are highly qualified and experienced in plastic, reconstructive and cosmetic surgery, including:

- Abdominoplasty
- Breast reconstruction surgery for women and men
- Hand surgery to release compressed nerves in elbows and hands (e.g. carpal tunnel syndrome)
- Lacerations and repair of tendons and nerves
- Liposuction to any part of the body
- Rhinoplasty
- Skin cancer removal
- Melanoma
- Basal cell carcinoma (BCC) and Squamous cell carcinoma (SCC)
- Skin grafts and skin flaps to correct defects

Ear, Nose and Throat surgery

Calvary Adelaide Surgicentre ENT Surgeon, Mr Darcy Economos, is a member of the Royal Australasian College of Surgeons working from his specialist rooms conveniently located at 316 Wakefield Street.

Mr Economos offers a range of procedures to treat ear, nose and throat (ENT) problems in adults and children, within the day surgery environment.

He specialises in the following procedures:

- Myringotomy
- Grommet surgery
- FESS (Functional endoscopic sinus surgery)
- Submucous resection (correction of a deviated nasal septum) and
- Turbinate surgery (to open up obstructed airway passages) and improve nasal breathing
- Rhinoplasty
- Septoplasty

Paediatric Dentistry

Calvary Adelaide Surgicentre provides specialised dental care for children ranging from 12 months to 18 years, including:

- Extraction
- Fillings
- Restoration (e.g. repair of teeth that have a reduced amount of enamel or have been damaged in an accident)
- X-rays

We provide surgery for children requiring extensive or complex dental procedures and those who are anxious or have complex special needs, requiring a general anaesthetic. We are especially skilled in caring for children with special needs. Examples include patients with autism spectrum disorders, Down syndrome, severe development delay or a physical disability that can make dental care difficult or traumatic.

Calvary Community Care

Calvary Community Care provides a range of services to support your patients to live in their home independently. We deliver a range of aged care, disability and other support services that enable independence, improve social connections and promote positive health and well-being.

Our services can be arranged via Government funding programs (e.g. Home Care Package, NDIS, Commonwealth Home Support Programme) or they can be privately funded.

- Hospital in the home (Acute Nursing service, complex and non-complex wound care)
- Rehabilitation in the Home (post-surgery, physiotherapy, occupational therapy)
- Personal care (showering, mobility)
- Travel (to appointments or shops)
- Social support (companionship)
- Domestic assistance (cleaning, laundry)
- Home maintenance
- Respite (support for carers)
- Community housing
- Disability accommodation

Calvary

Community Care

Calvary Retirement Communities

Calvary Retirement Communities invite your patients to join our close-knit community. We offer residential aged care and respite accommodation options in a home and family-like environment. Calvary welcomes people from diverse cultural and religious backgrounds. We take the time to get to know our new residents so that we can meet their physical, independence, spiritual, emotional and social needs.

We have two Residential Aged Care Communities in South Australia:

Calvary Flora McDonald Retirement Community

Located in Adelaide, Calvary Flora McDonald Retirement Community is a modern and welcoming facility. Two new wings were recently opened, including a dedicated Vietnamese wing.

Calvary St Catherine's Retirement Community

Located in the Riverland, Calvary St Catherine's Retirement Community has a wonderful homely environment and community feel, where residents feel part of a family.

Caring for South Australians since 1900

Australian Metabolic & Obesity Surgery (AMOS)

Dr Justin Bessell

AMOS is one of Australia's leading weight-loss clinics. Offering a full range of weight-loss solutions, delivered by a holistic, multi-disciplinary team, we strive to deliver the best possible health outcomes, weight loss and self-esteem.

Our team includes:

- GPs with an interest in bariatrics,
- dietitians,
- exercise physiologists,
- psychologists, and
- surgeons

We provide evidence-based care and long-term support, giving patients the best chance to achieve their health and weight goals. We offer several options for weight-loss, and continue to develop our services as new and approved procedures and medications become available.

Calvary Adelaide Hospital, Level 5 | P 8465 6300 | W www.amos.clinic

Re:You Weight Management Solutions

Dr Teresa Girolamo and Dr Zanna Murfitt have both dedicated much of their professional career to obesity management. They co-founded Re:You Weight Management Solutions.

The team at Re:You recognise Obesity as a chronic health condition, affecting patients across all disciplines of medicine.

Re:You is an innovative medical practice providing GP led, evidence-based obesity management. The clinic's vision is to improve the life of people living with obesity, both from a chronic health perspective and quality of life.

Teresa and Zanna and their team of practitioners at Re:You have extensive experience in all areas of weight management, including lifestyle modification, pharmacotherapy, and provision of end to end care for patients considering bariatric surgery.

Dr Teresa Girolamo

Dr Zanna Murfitt

Their aim is to co ordinate the care of their patients by working closely with an experienced team of allied health professionals, bariatric surgeons, the patient's regular general practitioner and relevant treating specialists.

Calvary Adelaide Hospital, Level 1 | P 8448 1915 | F 8125 6766 | W reyouhealth.com.au

Adelaide Heart Clinic

Adelaide Heart Clinic is one of the oldest Cardiology Practices in Adelaide (starting with Dr Robert Craig in the 1970's and Dr Peter Hetzel joining in 1985) and on Dr Craig's retirement, becoming Adelaide Heart Clinic in 2004 with Dr Richard Yeend, Dr Dale Ashby and Dr Ivan Straznicky. Dr Enzo De Angelis joined the Practice a few years later and Dr Peter Psaltis now consults in the Practice.

All are Interventional Cardiologists dealing in adult cardiology and work at the Royal Adelaide Hospital, Calvary Adelaide Hospital, Calvary North Adelaide and St Andrew's Hospital. Our Kent Town rooms, located at 32 North Terrace, offer echocardiograms, holter monitoring, blood pressure monitoring, exercise stress testing and ECG's.

Our Doctors also service country locations – Port Lincoln, Balaklava, Crystal Brook, Whyalla, Minlaton, Maitland, Bordertown and Keith.

Our staff includes very experienced cardiac sonographers, Nursing sisters and administration staff who are all extremely helpful, knowledgeable and efficient.

ADELAIDE HEART CLINIC

Adelaide Neurosurgeon

**Associate Professor
Andrew Zacest**

A/Professor Zacest is an Australian and US Fellowship trained neurosurgeon with expertise in Neurosurgery, Spinal surgery and Pain medicine and Surgery.

His unique dual training and expertise in Neurosurgery and Pain Medicine allows the most comprehensive and evidence based assessment, education and treatment of his patients.

His special areas of interest and expertise include:

- Comprehensive treatment of brain tumours
- Deep Brain Stimulation for Movement Disorders
- Neuromodulation for Neuropathic Pain

- Facial pain and hemifacial spasm
- Spine and peripheral nerve surgery
- Radiosurgery

A/Prof Zacest has published numerous papers and book chapters in neurosurgical and pain journals, presented at international meetings, teaches trainees nationally and internationally, is a section editor for the ANZJS and has served many years on the Board of the Faculty of Pain Medicine and Pain Section of the RACS.

Calvary Adelaide Hospital, Level 1 | P 7089 5262 | W adelaideneuro.com.au

Adelaide Neurosurgery Centre

**Dr Marguerite
Harding**

Dr Marguerite Harding is an experienced Neurosurgeon with special interests in brain tumours and cerebrovascular disease. She has a keen interest in education and is involved in ongoing research in this area.

Other areas of interest include:

- back pain management and intervention
- spinal surgery including complex spine surgery
- complex cranial surgery
- vascular surgery such as aneurysms and arteriovenous malformations

- brain tumours including skull base tumours
- trigeminal neuralgia and hemifacial spasm
- hydrocephalus and Chiari malformations
- peripheral nerve surgery

Calvary Adelaide Hospital, Level 5 | P 7231 9974 | F 8227 1716 | W neurosurgerycentre.com

A/Prof Amal Abou-Hamden, Neurosurgeon

**Associate Professor
Amal Abou-Hamden**

A/Prof Amal Abou-Hamden is a leading Australian adult & paediatric neurosurgeon with a unique combination of advanced post-graduate fellowships in cerebrovascular, epilepsy and paediatric neurosurgery.

Since her return to Adelaide, she has introduced a number of highly specialised surgical procedures and techniques, including brain mapping and awake craniotomies for brain tumor and epilepsy surgery, keyhole surgery for brain aneurysms and tumors, cerebral revascularisation and bypass surgery for giant and complex aneurysms, Moya Moya disease and stroke prevention.

Her surgical expertise also includes:

- Surgery and multi-disciplinary management of complex arteriovenous malformations and aneurysms
- Skull base and pituitary surgery
- Endoscopic brain surgery
- Chiari malformations, syringomyelia and hydrocephalus
- Trigeminal neuralgia

A/Prof Abou-Hamden is a RACS Neurosurgery Examiner and Principal supervisor for the Neurovascular surgery fellowship and the neurosurgical training programs at the RAH and WCH.

Calvary Adelaide Hospital, Level 5 | P 8223 3450 | F 8359 2633 | W adelaideneurosurgery.com.au

Neurosurgeon Adelaide

**Dr Santosh
Poonnoose**

Dr Santosh Poonnoose completed his Neurosurgical training at the Christian College, India in 2001. He began his career in Australia in 2004 and he has been working in the Department of Neurosurgery at Flinders Medical Centre since then.

Special areas of interest include:

- complex cranial procedures
- complex spinal procedures.
- neuroncology
- awake surgery for tumours in eloquent parts of the brain
- skull base surgeries
- epilepsy surgery

He founded the South Australian brain tumour bank as he is passionate about finding a cure for brain tumours through research.

Calvary Adelaide Hospital, Level 5 | P 7324 5891 | F 8374 4156 | W neurosurgeonadelaide.com.au

Neurosurgery + Spine

**Professor
Matthew McDonald**

Professor Matthew McDonald is a senior Neurosurgeon and Complex Spinal Surgeon.

His areas of specialty include:

- brain tumours
- deep brain stimulation for conditions such as Parkinson's disease and essential tremor
- complex spinal surgery
- minimally invasive spinal surgery
- new technology back pain surgery
- degenerative conditions of the spine
- spinal tumours
- trauma

Professor McDonald has also been working with UniSA, Calvary Healthcare and the University of Notre Dame, to facilitate Medical Education & Research.

Calvary Adelaide Hospital, Level 5 | P 8223 3989 | W nands.com.au

Wakefield Eye Care

Wakefield Eye Care was established in 1997 by its principle surgeons Dr Darcy Economos and Dr George Pietris.

Both Dr Economos and Dr Pietris have been heavily involved in teaching eye surgery at the Royal Adelaide Hospital and Queen Elizabeth Hospital for over 20 years and they bring this experience to all their patients at Wakefield Eye Care.

Patients are examined and assessed by their treating surgeons and are seen postoperatively for comprehensive follow up.

Wakefield Eye Care specialises in the provision of state of the art ophthalmic surgery specialising in advanced cataract surgery. All surgery is performed in the brand new fully equipped, latest technology theatre suite at Calvary Adelaide Hospital.

Dr Darcy Economos

Dr George Pietris

Services include:

- intravitreal injections for macular degeneration
- intravitreal injections for diabetic eye disease
- advanced cataract surgery
- pterygium surgery
- glaucoma management
- general ophthalmology

WAKEFIELD ORTHOPAEDIC CLINIC

Wakefield Orthopaedic Clinic (WOC) is a group of 19 surgeons providing evidenced based treatment for the community.

Founded in 1991, the group prides itself on providing high quality care to patients, engaging in education and research, and a full complement of upper and lower limb musculoskeletal care.

Subspecialty expertise care is provided:

ARTHRITIS CARE

WOC surgeons provide a tailored treatment plan for each patient – maximising low risk non-operative treatment using proven therapies, before offering joint replacement surgery. The clinic offers the latest techniques including CT based planning, robotic assisted surgery techniques and patient specific instrumentation when appropriate.

SHOULDER CLINIC

WOC values a combined approach between the patient, sports doctors, physiotherapy and surgical experts, to apply an evidenced based approach to improving shoulder pain and dysfunction.

FOOT AND ANKLE CLINIC

Fracture and ligament injury management, bunion and deformity correction, and arthritis care are offered by our foot and ankle surgeons.

HAND, WRIST AND ELBOW

WOC surgeons have been involved in the development of new ways to treat hand and wrist disorders and can provide evidence-based care which is supported by experienced hand therapists for optimal outcomes.

HIP, KNEE AND SHOULDER ARTHROSCOPIC SURGERY

Including anterior cruciate ligament, arthroscopic hip and shoulder reconstruction, WOC continues to offer minimally-invasive techniques to reconstruct joints and return function.

Pain Medicine Specialists

Dr Porhan Kang has more than 15 years experience in chronic pain procedural interventions. He has been the Director of the FMC Pain Unit since 2014. He has also travelled to Europe and USA to further develop his interventional skills. His special area of interest is Spinal Procedures including spinal cord stimulation (neuromodulation).

Dr Hima Venugopal graduated from Bangalore University in 1999 and worked in Malaysia for 8 years pursuing training in obstetrics and gynaecology. After moving to Australia she specialised in Rehabilitation medicine. She is a staff specialist with the department of pain unit at Flinders Medical Centre. In addition to interventional pain practices, her areas of special interest include cancer and pelvic pain. Hima is fluent in English, Hindi, Tamil, Telugu and Malay.

Dr Porhan Kang
FFPMANZCA

Dr Hima Venugopal

Between them they perform many Pain interventions including lumbar facet joint radiofrequency neurotomy, cervical facet joint radiofrequency neurotomy, neuromodulation, epidural blocks, peripheral nerve blocks, genicular nerve knee RFN, sacroiliac joint block, sympathetic block, and greater occipital nerve block.

Calvary Adelaide Hospital, Level 5 | P 7324 5891 | F 8374 4156

Adelaide Respiratory

At Adelaide Respiratory we provide a comprehensive outpatient and inpatient Respiratory Medicine service. Consultant Physicians Dr Sam Porter and Dr Zoe Scounos are available for consultation, management and follow up of chronic and acute respiratory and sleep disorders. Our Physicians are readily able to co-ordinate and streamline any necessary diagnosis, treatment or support pathways via either the Public or Private Health networks.

Standard and specialised lung function testing is available at our onsite laboratory. We welcome referrals from GPs, specialists, medico-legal services, employment services and concerned individuals.

Our aim is to provide the best care in a timely, professional manner and comfortable environment to ensure the best outcomes.

Dr Sam Porter

Dr Zoe Scounos

WAKEFIELD SPORTS AND EXERCISE MEDICINE CLINIC

Wakefield Sports and Exercise Medicine Clinic is a multidisciplinary sports medicine clinic, treating everyone from the elite athlete to all members of the community.

OUR SPORTS DOCTORS

Our sports doctors have a vast amount of knowledge and experience. They have and continue to work with countless national and professional teams including Football, Soccer, Netball, Rugby, Basketball, Tennis, Athletics, Volleyball, Cricket, Swimming and Hockey.

Services include:

- > Sports injury management
- > Arthritis care
- > Pre and post season assessments
- > Sports medicine prevention & educational advice
- > Family medicine including flu vaccinations
- > Occupational medicine including pre employment medicals, military and dive medicals
- > Concussion testing (Adelaide Concussion Clinic)

Clinpath Pathology Collection Centre is also available Monday-Friday.

WEEKEND SPORTS INJURY CLINIC

When you put your body on the line week after week, sometimes there's a price to be paid. Even the finest warriors must deal with battle scars. The Weekend Sports Injury Clinic is a walk-in service designed especially for our weekend warriors. If you have players injured on a weekend who require immediate medical attention our sports doctors who specialise in sports injuries can help you.

OUR PHYSIOTHERAPY AND ALLIED HEALTH PRACTITIONERS

Our experienced physiotherapy team possess a comprehensive range of skills to ensure your best possible chances of a quick and complete recovery, and a return to your sport or pre-injury activities.

Other services provided include:

- > Exercise prescription
- > Arthritis management
- > Exercise rehab classes
- > Back education classes
- > Manual therapy techniques
- > Manipulation and passive mobilisation
- > Musculoskeletal screening
- > Isokinetic strength testing
- > Stretching/Taping
- > Acupuncture/Dry needling
- > Hospital orthopaedic inpatient physiotherapy

As a multidisciplinary clinic we also offer podiatry, remedial massage, nutrition and dietetics, exercise physiology and sports psychology.

Consultations are available throughout the week by appointment only. No referral is necessary.

We are here to "keep you moving".

WAKEFIELD
SPORTS + EXERCISE MEDICINE CLINIC

Calvary Rehabilitation Programs

Orthopaedic Program

The program consists of physiotherapy and hydrotherapy and assists people following surgery including total hip or knee replacements, fractured neck or femur or spinal surgery.

Cardiac Rehabilitation Program

The program is designed to optimise healthy behaviours to limit the physical and emotional impact of cardiac disease, control cardiac symptoms and reduce the risk of further cardiac events. It consists of individualised aerobic and resistance training. Lifestyle modification education and support is provided.

Pulmonary Rehabilitation Program

The program is designed to assist people with lung conditions to improve quality of life by promoting self-management, reducing breathlessness and improving exercise tolerance. Maintenance exercise groups are available after completion of program.

Neurological Program

The program assists people after a stroke or neurosurgery, or experiencing a functional decline associated with other neurological conditions such as Multiple Sclerosis, Guillain-Barré or Parkinson's Disease. These may be offered 1-on-1 or in a circuit group program.

Continued on next page....

Assisting your patients with their rehabilitation

Nurse Practitioner and Diabetes Clinic

The clinic provides a collaborative approach to preventive and secondary health care to people with cardiovascular disease and diabetes. Health outcomes are optimised through the provision of disease specific education, person centred health promotion and self management strategies. Direct referral to Nurse Practitioner or Medicare Enhance Primary Care for Diabetes Educator.

Tailored Multidisciplinary Programs

Disciplines available include: Physiotherapy, Hydrotherapy, Occupational Therapy, Speech Pathology, Psychology, Dietetics, Diabetes Educator and Nurse Practitioner. These may be offered 1-on-1 or in a group program.

Driving Assessment and Rehabilitation Service

This specialist driving clinic is available including a Rehabilitation Specialist to review medical fitness to drive and occupation therapy driving assessments if required. Please see website for referral form or phone 8227 6796.

Reconditioning Oncology Program

The program assists people undergoing treatment for cancer to improve their functional ability and quality of life through a program of exercise, education, social support and meditation.

Breast Cancer Reconditioning Program

The program is designed for women who are undertaking adjuvant chemotherapy for breast cancer, but is also suitable for other women with breast cancer. It consists of moderate to vigorous intensity aerobic exercise, resistance training, stretching and meditation.

Outpatient Rehabilitation Services

Outpatient Rehabilitation Services are provided on McCann Ward, located on Level 7 and Mackillop Ward, located on Level 8. Our facilities include a hydrotherapy pool, large and small gym, group therapy room and outdoor mobility garden.

NORTH ADELAIDE OBSTETRICS + GYNAECOLOGY

THE ULTIMATE IN WOMEN'S HEALTH CARE

HIGH RISK OBSTETRICS

The team at North Adelaide Obstetrics and Gynaecology are able to provide compassionate and personalised obstetric care for women at all stages of pregnancy.

From pre-pregnancy planning, comprehensive antenatal care, intrapartum (labour) care through to postnatal care. Our Doctors and Midwives work with our patients and their partners at every stage, to facilitate an enjoyable and successful pregnancy.

MIDWIFERY CARE

Alongside your chosen Obstetrician, our Midwifery team provide you with additional care and support during your pregnancy, answering any questions you may have along the way. This includes offering individualised education sessions to discuss your labour, birth and early parenthood.

EXPERT GYNAECOLOGY + ADVANCED LAPROSCOPIC SURGERY

We can assess and treat a range of women's health issues including:

- Endometriosis
- Pelvic pain
- Pelvic organ prolapse
- Vaginal surgery
- Contraception
- Laparoscopic surgery
- Abnormal pap smears
- Menstrual disturbances
- Colposcopy
- Difficulty falling pregnant
- Menopause
- Other gynaecology issues.

POSTNATAL CARE + LACTATION CONSULTANT

We offer a postnatal service, which includes routine appointments with both a Midwife and GP/Lactation Consultant. Their focus is on your well-being, baby's feeding, settling and baby's weight. We offer appointments for complications associated with:

- Breastfeeding
- Infant sleep
- Unsettled infant behaviour
- Maternal mental health care
- Infant growth concerns
- Potential tongue tie.

PHYSIOTHERAPY + PELVIC FLOOR CARE

We work in conjunction with a specialist women's health and pelvic floor Physiotherapist. Our goal is protection and prevention, keeping you strong and comfortable during and after pregnancy.

“The leading provider of comprehensive cancer care and services”

Palliative Home Care Service provided by Mary Potter Hospice

The Calvary Palliative Home Care Service provides patients with choices regarding where and how their care is delivered, in close collaboration with Mary Potter Hospice and Calvary North Adelaide Hospital.

The aim of the service is to ensure patients receive the best care, in the most suitable location based on the desires of the patient, their family and of course their care requirements.

Primarily, home care visits and care are provided by Calvary nurses, however, when the need arises visits will also be undertaken by doctors (specialist palliative care physicians), allied health specialists and bereavement counsellors.

Palliative Home Care
North Adelaide Hospital

How does it work? Health Insurance

The Calvary Palliative Home Care Service is provided through Calvary North Adelaide Hospital and as such is paid for by the patient's health insurance policy.

Patients are required to sign a health insurance claim form, just as they would if they were being admitted to a private hospital.

For more information please call us | P 8239 9511

The Mary Potter Foundation

For over 30 years, the South Australian community has been supporting patient care in Mary Potter Hospice through The Mary Potter Foundation.

Our mission is to add life to every day, every hour. We do this through supporting patients admitted to Mary Potter and their families.

Through donations to the Foundation, we are able to provide at no cost, all programs, facilities which are well equipped and comfortable, the family kitchen, which provides comfort food and beverages 24/7, and we are able to make sure that all the little things that add life and bring joy, such as family celebrations and special treats don't stop just because you are in Mary Potter.

We are now in the home too

The Foundation provides financial assistance to the Palliative Home Care Service, so that patients who choose to remain in their home, can access the care they need.

Be a part of something special. Make a difference in the life of someone today.

To make a donation go to marypotter.org.au or call our office on 08 8239 0119.

Thank you for your support.

The Mary Potter
Foundation Inc

Adelaide Paediatrics

Adelaide Paediatrics brings together an extensive selection of committed medical and allied health professionals working collaboratively to provide comprehensive healthcare to children. Providing neonatal care from our Calvary North Adelaide location are experienced paediatricians, Dr Anthony Chitti and Dr Merike Perem.

Some of Dr Chitti's interests include Childhood Learning, developmental and behavioural problems, and Neonatal Medicine. His friendly and cheerful nature makes Anthony very popular with his patients.

Dr Perem has particular interests in Paediatric Neurology, Neurodevelopmental Medicine and Rehabilitation Medicine, as well as Neonatology. As a mum herself, Merike's caring approach and friendly nature make her easy to relate to for children and families alike.

Dr Anthony Chitti

Dr Merike Perem

The Adelaide Paediatrics team offers a depth and breadth of integrated services including assessments, support and therapy for children with medical or developmental needs. New referrals welcome.

Northern Breast Centre

The Northern Breast Centre brings together specialised surgeons (Breast, Endocrine and General) and breast care nurses with state of the art diagnostic and treatment partners in one convenient location.

Working together with GPs, the Northern Breast Centre supports patients from cancer diagnosis, surgery, and treatment. The centre provides continuity of care that is of the highest quality, and with a focus on minimising out of pocket fees, one that is also as affordable as possible.

Clinpath Pathology

Pathology testing for diagnostic and treatment process. Testing can include blood tests, urine/swab tests and/or biopsies.

HPS Pharmacies

A complete chemotherapy management system, including a responsive on-site compounding and dispensing service catering for all adjuvant therapy

that may be required as part of a patient's treatment regime.

Adelaide Oncology & Haematology

Providing a comprehensive private oncology and haematology services, with access to a broad range of cancer specialists, supportive care practitioners, and administration of chemotherapy on site.

GenesisCare

Pushing the boundaries of technology to develop better radiation therapy treatments that target the cancer cells without damaging the surrounding healthy tissue.

Radiology SA

All Medicare rebatable tests are bulk billed and same day diagnostic CT imaging is also available. The new PET/CT scanner is the only one available in northern Adelaide.

Eye Surgeons SA

Each of our four consulting suites are fully equipped with:

- High resolution OCT scanning for macular and optic nerve assessment
- High resolution retinal photography for serial assessment of ocular pathology
- YAG Laser for iridotomy (e.g. for angle closure glaucoma) and laser capsulotomy (following cataract surgery)
- Selective laser trabeculoplasty (SLT) for glaucoma management that reduces the need to use glaucoma drops.
- Ultimate cataract surgical planning and intraocular lens calculation: Lenstar Biometer, IOL Master 700, iTrace Wavefront Aberrometer
- Corneal Topography / Pentacam
- Retinal laser and macula injection capabilities

Ophthalmic expertise includes:

- Dr. Paul Athanasiov: complex cataract and refractive surgery, cornea surgery /cross-linking and pterygium surgery
- Dr. Soo Khai Ng: glaucoma laser and surgery, cataract surgery, retinal laser /injection and general ophthalmology
- Dr. Neena Peter: oculoplastic surgery (blepharoplasty, ptosis repair, DCR and skin cancer excision with eyelid reconstruction)
- Ms Rebekah Hopps and Mr Daniel Tretola are therapeutically endorsed clinical optometrists

All patients with relevant private health insurance will have no out-of-pocket expense for their surgery (excludes cosmetic procedures).

Dr Jones & Partners

Dr Jones & Partners Medical Imaging is proud to be a doctor owned and operated practice offering the highest quality diagnostic and interventional radiology services throughout South Australia and Alice Springs.

Our Calvary Adelaide Hospital Clinic embodies our ongoing commitment to quality, technology, innovation and subspecialisation. What is now the largest private medical imaging facility in the state has been designed to deliver tailored patient and referrer services in diagnosis and interventional radiology. At the forefront of planning for this facility was our people, systems, equipment and processes designed to deliver contemporary and innovative medical imaging services to the community.

The clinic was designed to evolve through ongoing patient and referrer consultation to continue to

deliver Adelaide's premium radiology services and experience including:

- Comprehensive after hours imaging
- Walk-in service for multiple modalities
- Full suite of modalities onsite (CT, US, OPG, X-Ray, MRI, Nuclear Medicine and Fluoroscopy)
- Efficient and easily accessible diagnosis and consultation
- Online Bookings for patient convenience
- Gap only fee policy for minimal patient out of pocket expense
- Radiologist access 7 days per week
- Musculoskeletal interventional and reporting sub-specialisation
- Established relationships with a suite of medical specialists for comprehensive in-house patient solutions

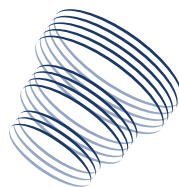

Radiology SA is a wholly doctor owned South Australian company.

HPS

HPS and its network of HPS Approved Pharmacies is one of Australia's leading providers of pharmacy services to healthcare facilities, including private hospitals, cancer centres, and correctional facilities.

Our business operates in all states and territories across Australia, with a client group including state government departments and private health facilities. HPS employs over 600 employees

dedicated to providing quality service to clients. With more than 330 pharmacists, we have the expertise to deliver a large range of pharmacy services including; clinical services, pharmaceutical product supply, inventory management, dispensing, lecturing, opioid management, manufacturing, and oncology preparation,”

Clinpath Pathology

Pathology is part of life. Choose right.

Operating under the model of “Medical Leadership”, Clinpath Pathology, as part of the global Sonic Healthcare network, is leading the way as a highly respected, well established private pathology practice located in Adelaide, South Australia.

Clinpath was the second pathology company to join Sonic Healthcare, way back in the early 1990’s. Since then, we have played a crucial role in the development of Sonic Healthcare as a global pathology company and as an organisation striving to achieve the highest possible levels of quality in pathology service.

At the heart of everything we do in our business is the patient.

Our main laboratory in Mile End is among the most advanced in the world and designed to help solve the complex diagnoses required of modern medicine. We have a further seven hospital laboratories strategically located throughout Adelaide, including the 24-hour service at Calvary Wakefield Hospital which supports our main laboratory.

At the heart of this unique model of Medical Leadership, has pathologists and laboratory professionals intimately involved in all business operations and decisions. We provide laboratory services to general practitioners, specialists, private hospitals and aged care facilities.

Think Pathology. Think Clinpath.
