Via Zoom from the comfort of your own home

The COVID-19 pandemic has made us more aware of illness, dying, and mortality. It's not easy to talk about what we want at the end of life, but it's important. We have learned that we can get through tough situations... including talking about death.

Talking about death doesn't have to be difficult. So sit back, relax and let us guide you through the discussion over a cuppa.

Limited places: Registration essential by 26 Nov.
