

Keeping you safe during the Coronavirus

Hospitality

Healing

Stewardship

Respect

Our aim at Calvary is to give you a healing experience in every way.

The global pandemic Coronavirus or Covid-19 prompts us to ask you to do a few things differently to help us care for you better:

- nominate **one person only to visit you**: a partner, carer, guardian or nominated significant other
- wash your hands thoroughly or use alcohol based hand rub and cough into your elbow
- keep your table and tray clear of all tissues and personal items
- stay in your room as much as possible to avoid social transmission risks.

We are never too busy for you.

You matter, we care about you.
