

It is important that you provide Calvary with evidence of your COVID-19 vaccinations by providing a copy of your Vaccination Statement.

Understanding the number of your staff vaccinated against COVID-19 and who are accessing our facilities will allow Calvary to respond directly to known or developing threats of outbreaks.

What is a vaccination statement?

A Vaccination Statement is a record of all your vaccinations recorded on the Australian Immunisation Register (AIR). The AIR is a national register that records vaccines given to people of all ages in Australia.
