## Salary packaging work-related expenses

Salary packaging lets you pay for some expenses with money from your salary before you get taxed. This could reduce your taxable income, meaning you could pay less tax and take home more of what you earn.

You could be eligible to package a range of work-related expenses, including self-education or further study, home office supplies, financial advice and portable electronic devices.

## What could I claim?

The following is a list of benefits that you could be eligible to package using before-tax dollars. Please check with your employer to see if they're available to you.
