

CHCB Graduate Program 2024

About Us

Calvary Health Care Bethlehem is a leading Victorian specialist Palliative Care service with a state-wide role in caring for those with a progressive neurological disease such as Motor Neurone Disease, Multiple Sclerosis and Huntington's Disease. The service is complemented by ambulatory services which are provided to patients in their home or residential facility or through centre based services such as clinics and day centre for those people who are more mobile.

CHCB is located at the new Calvary Kooyong Precinct which opened in early 2023. The precinct brings together retirement living, residential aged care, Calvary in-home care, GP services and Calvary Health Care Bethlehem's specialist health services in one location.

The Graduate Program is in keeping with the values of Calvary Health Care Bethlehem: Hospitality, Healing, Stewardship and Respect. In practice, it is 'Being for Others', recognising the personal worth of each individual, acknowledging talents and skills by providing support, education and mentoring, as well as creating an atmosphere of willingness to share and engage with one another.
